Self-Payment Policy

In an effort to make physical therapy services more accessible and affordable to the self-pay client a policy has been implemented and is as follows:

As with our contracts with different insurance companies, a fee schedule is used to determine payment. The amount of the difference from our charges and the payment allowance on the fee schedule will be adjusted off of your account balance.

The Self-pay Fee Schedule is the following:

First visit: Initial Evaluation and Treatment (approximately 1 and ½ hours):
\$100

Treatment visits: Follow-up (approximately 1 hour):
\$75

Any other walk-in treatments such as consult, massage, MPS, laser
\$25

*Payment in full is expected at time of service.

Please note: Should your account become delinquent on the agreed terms, we hold the right to withhold further treatment until either payment is received or a new payment arrangement is made.

I agree to the self-payment fee schedule and understand to pay in full at time of service.
